The purpose of this event is to provide the consultant community with information about upcoming opportunities to do business with Seattle Public Utilities (SPU). Contract Managers will present information on these and other projects:

- Commercial Sector General Outreach & Program Delivery
- Green Gardening

Information will be presented on the City's contracting processes and contract requirements, as well as introduce the City's business tools. There will be time for questions and to meet with SPU staff and other consultants.

### Registration

Due to room size, advance registration is requested to guarantee admittance. Registration will also help us develop a distribution list for future events.
